THE FACTS OF LIFE

The story that follows is about four people named Everybody, Somebody, Anybody, and Nobody.

There was an important job to be done, and Everybody was asked to do it. Anybody could have done it, but Nobody did it.

Somebody got angry about that because it was Everybody's job. Everybody thought Anybody could do it, but Nobody realized that Everybody blamed Somebody when Nobody accused Anybody.

Presidents' Letter

As I write this message Thanksgiving has just passed and Christmas will soon be upon us. How many of you have taken a few minutes to contemplate what our ancestors did on their holidays back in Lancaster, Pa., Pittsylvania County, Va., Peoria, Ill., Oneida, N. Y., a sod house in Nebraska, England, Holland, or a million other localities?

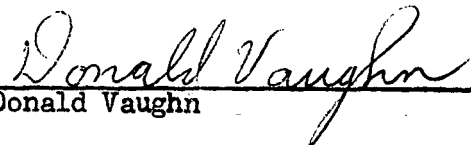

No doubt some were living in relative luxury with warm homes, plenty of food to eat and friends to share the pleasures.

Others with below average material blessings, probably with large families to feed and house spent the day with relatives and thanked their Maker for what they had. Another group may have just arrived in a strange country with very little money, sickness, and a foreign language to learn. Most of us can consider ourselves among the fortunate compared to the life them.

We have about 41 members at present. Many are long time members and some have been bitten by the "Genie Bug" recently. Did you know there are several stages of the "Genie Disease"? First, there is a little interest, it turns into a hobby, and then continues into a full time vocation. In the latter stages, genealogy becomes an obsession and is considered incurable. Many never get to what I consider the best part of genealogy--helping others. We constantly write for help to far away places and expect answers or read material someone has spent countless hours gathering and printing. I encourage more of our friends and members to be the "unselfish experts from Douglas County."

Your executive committee is working on plans for a workshop in the spring. Hopefully we can announce details of date, location, and program soon.

Your president,

Donald Vaughn

Herald of Freedom, April 21, 1855

Names: Females should have but one given name, and when they marry, should retain their maiden name as a middle name. This is the practice among the society of Friends, and were it generally adopted, it would have many advantages. We should know at once, on seeing a lady's name, whether she was married or single, and if the former, what the name of her family was. And it is further to be considered that the adoption of this rule of but a single first name for girls would put an end forever to be whole brood of Emma Mevalindas and Euphemia Helen Lauras, and a style of nomenclature which is thought by most persons to be ridiculous in the extreme.
