## Acknowledgements

The Douglas County Genealogical Society is pleased to publish the Douglas County Kansas, 1875 State Census. This is a culmination of many persons work copying, typing and indexing over a five year period.

The Society wishes to thank the Kansas State Historical Society for making the original book available. Special thanks to Terry Harmon of the Kansas State Historical Society staff for his help coordinating this project.

The Society appreciates the help and cooperation of Wayne Mayo, Library Director and the reference staff at the Lawrence Public Libray. Storing the original and making it available to the many copiers was invaluable.

Thanks to Past President Mary Jamison who helped start this project during her administration.

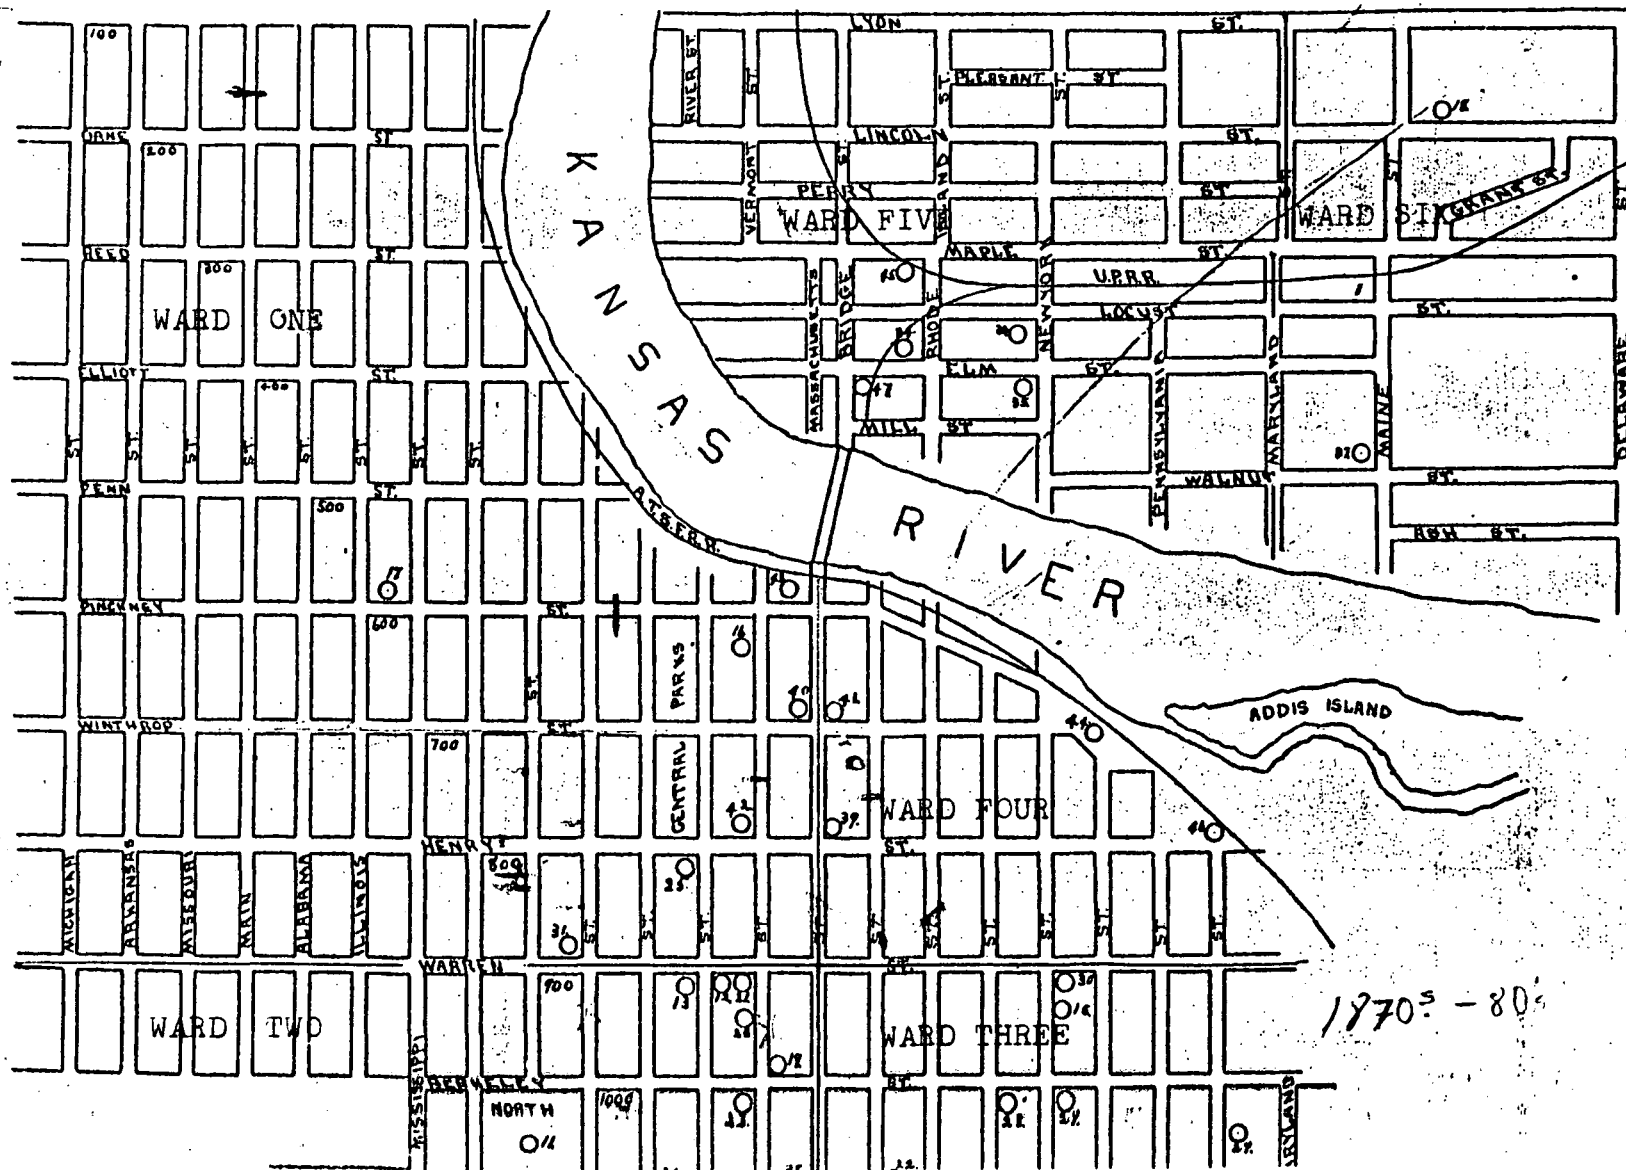

Care was used in copying but the Society can not be responsible for any errors. Anyone who has read a census knows the difficulty deciphering misspelling and faint unfamiliar writing. A copy of the Lawrence City Directory of 1875-6 was used as an aid in reading some of the difficult writing. In many instances the names from each source are given, and identified as such.

Most of the Lawrence Wards and Douglas County Townships are printed in the sequence found in the original to make it easier to indentify possible family relationships to others living nearby.

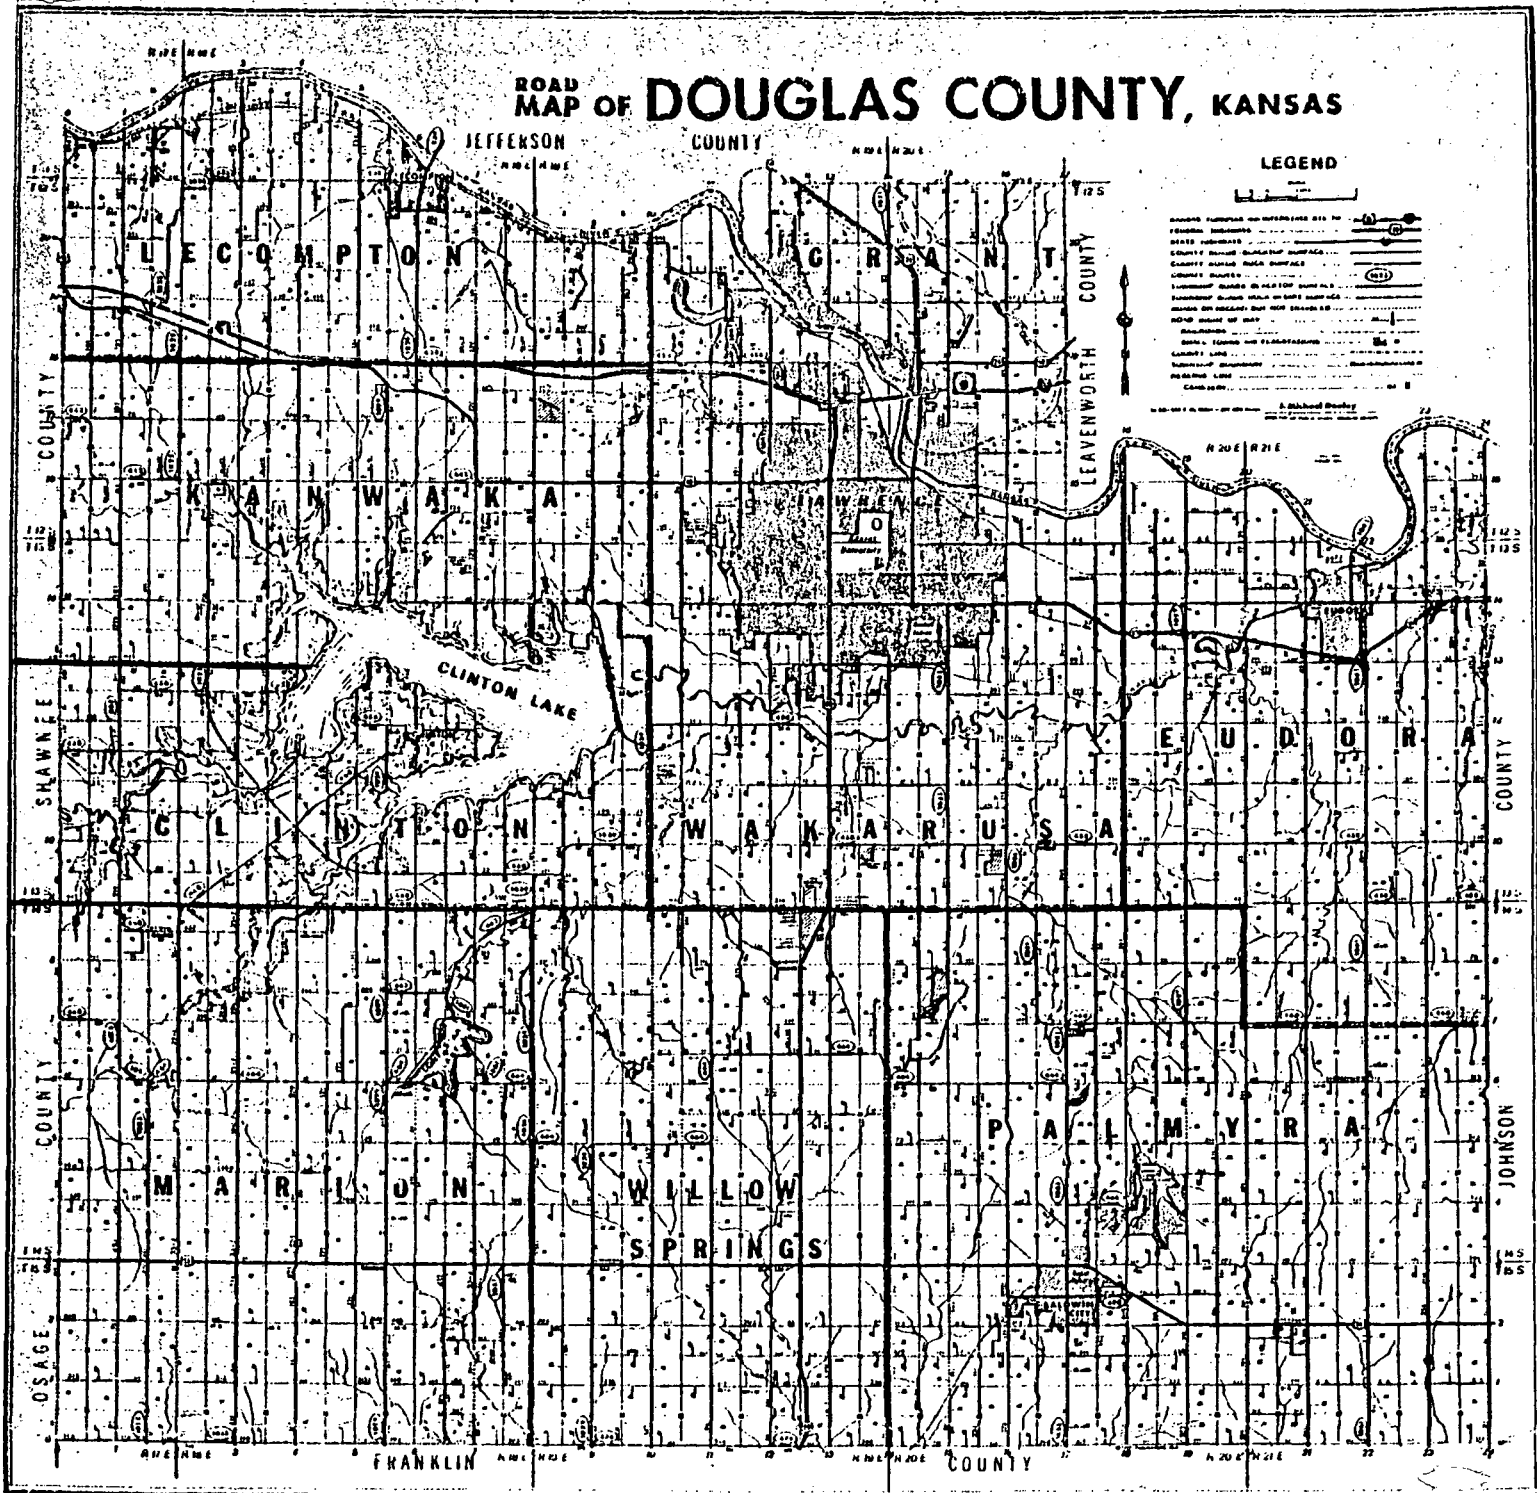

Grant Township and Lawrence Ward five are printed in alphabetical order, with the original page numbers given. Each of the remaining sections has its own index. They are arranged in a group at the beginning of the book.
