Instructions and Suggestions

1. Always call by number and not by name. If the subscriber you are calling is not listed in this directory, call chief operator and she will give you the desired information. Operators are instructed to furnish local connections by number only.

2. Speak in an ordinary tone with the mouth an inch or two from the mouth piece of the transmitter.

3. Always hang up receiver with large end down, when through talking. Failure to send this disconnect signal to operator, is often the cause of delay, and your line may be reported busy to any subscriber calling for your number.

4. If every subscriber would answer calls promptly, the service would be materially improved and the calling subscriber would obtain a prompt connection. The subscriber is a part of the telephone system and it is within his power to advance the efficiency of the service.

5. **Do not engage the operators in conversation**, it interferes with the service, and may cause them to lose their positions.

6. Trouble occurs in all Telephone Plants, and we trust that our subscribers will assist us in keeping our system so that we may give as nearly perfect service as possible, by reporting to the Chief Operator all telephones out of order, or any discourtesy or slowness on the part of our operators.

7. **THE LAWRENCE HOME TELEPHONE COMPANY** assumes no liability whatever, for damages accruing from errors or omissions in the compiling or printing of this list, or for errors of operators.

8. Treat our operators courteously, and we will assure you the same treatment. They are constituted much like other people—reasonable subscribers get better service than chronic kickers.

8. Notify the company in writing of all errors or omissions in this list.

Call 458 after 6 P.M.

1846 Mass. St.

To Make a Long-Distance Call

Call Central in the usual way. Operator will answer "NUMBER?" Ask her for Long Distance. When the long distance operator answers, give her the following details concerning your call.

1. The name of the person calling.
2. The originating telephone number.
3. The full name of the person wanted.
4. The definite address of the person wanted, either a telephone number, a firm name, or street address, and the name of the town and state.

Appointments to talk at a specified time will be made without additional charge, except in case messenger service is necessary.

Persons not having telephone will be notified by messenger, if requested, at your expense.

Long distance charges may be reversed and collected at the distant end of the line, if agreeable to the party called, and if arranged for before connection is established.

ASK LONG DISTANCE OPERATOR FOR RATES.

Rates will be quoted for a period of three minutes or less duration and operators will not notify you of the expired time, during connection.

Night rates are in effect with some stations from 6 p. m. to 6 a. m., and are about half the day rate.
