## **CHANGE IN POLICY FOR INQUIRIES TO THE GENEALOGIST**

The Board at its December meeting voted to require a \$10 deposit with requests for genealogical research by the Society. Those submitting requests without the deposit will be notified of the requirement before any research is undertaken. Those who have submitted inquiries before the Board's vote will not be affected.

The change in policy was prompted by the difficulty the Society has experienced in collecting fees for research already completed.

At the present time, the Society is without a genealogist, and member volunteers are researching requests at the Helen Osma Room in the Lawrence Public Library, where the Society and the local chapter of the D.A.R. keep their materials, and where the library's own Kansas Collection is housed. While a great deal of material is available in this location, including cemetery and funeral home records, all issues of *The Pioneer* and its indexes, Lawrence City Directories, unindexed Kansas and Federal censuses on microfilm, and all issues of the Lawrence Journal World on microfilm (only partially indexed for the early 1890's), this location does not house at the present time any vital, court or land records other than those published by the Society (although we have published many). In order for these records to be searched, a specific request should be made, and it should be expected to cost more in terms of time involved. It should also be remembered that local records were destroyed in Quantrill's Raid August 21, 1863, and county birth and death records are extremely limited.

We know there has been a delay in processing requests for information for which we apologize. If you are waiting for us to answer, please do not despair! We will get to it!

## **NEW PROCEDURES FOR OBTAINING VITAL RECORDS FROM THE STATE**

The Kansas Office of Vital Statistics (Landon State Office Building, 900 S.W. Jackson, 1st Floor, Room 151, Topeka, KS 66612-1290) has made some changes in its application procedures for obtaining copies of vital records. Proof of identification is now required for the person making the request, such as driver's license, picture ID, social security card, credit card, military ID, voter registration, employment ID card, etc.. Application forms have also been revised for obtaining copies of birth and death certificates, marriage licenses, and divorce reports. The recording of births and deaths began at the statewide level in July 1911, divorces in 1951.

## **DOUGLAS COUNTY, KANSAS IN 1864**

The *Kansas Annual Register for the Year 1864*, published by the State Agricultural Society (a copy is available at the Lawrence Public Library, call number KC 978.1 ST28), gives an interesting description of Douglas County, Kansas, all of which will not be reprinted here, but genealogists might find the following excerpts of value, and certainly of interest:

"Population in 1860, 9,207. ... There is hardly a county in the State where the farmers have generally made better or more valuable improvements than in Douglas. The Pacific Railroad on the north, and the Leavenworth, Lawrence & Fort Gibson Railroad through the county, will, of course, afford all the facilities for commercial intercourse that can be desired, and always provide ample means for shipping the surplus of the agricultural or stock grower. ... Lecompton was as early as 1855, made the capital of the Territory, and around and in it centered the strength and virulence of the pro-slavery rule in Kansas. Lawrence was equally dedicated to freedom, and destined to be the home of those who respected the rights and liberties of all men. These two towns were but twelve miles apart. Lecompton is now desolate and almost deserted. At one time it probably had about one thousand inhabitants, now it has not to exceed one hundred. Clinton, Bloomington, Black Jack, Prairie City, Baldwin City, the location of Baker University, and Franklin, are other villages in the county. Of these Baldwin City is the most thrifty at present, the superior educational advantages being a strong inducement for families to locate in the town and its vicinity."

### **EARLY LAWRENCE WEATHER**

*The information for this article was taken from an address by Professor Hamilton Perkins CADY of the University of Kansas, sent to the granges and labor organizations of Kansas in 1911 by the Department of University Extension at K.U., and reprinted in Collections of the Kansas State Historical Society, 1911-1912.*

Lawrence weather records were kept by one man, Dr. Francis H. SNOW, from 1868 to 1909. As a consequence, the data was taken in a uniform manner and is very reliable for studying variances. Dr. SNOW was the first weather recorder in Lawrence. Only Leavenworth, where records began in 1836, and Manhattan, where records began in 1858, have older Kansas records, but the data in those places is not totally complete, being interrupted at various intervals.

During his tenure, Dr. SNOW saw rainfall increase at Lawrence at the rate of about .17 of an inch per year. At the beginning of his records, the average yearly rainfall was 33.33 inches, increasing to 40.45 inches by the end, but varying greatly from year to year. For example, the precipitation for 1897 was 23.79 inches, while that for the next year, 1898, was 44.05 - a difference of more than 20 inches!

## DOUGLAS COUNTY, KANSAS VOLUNTEERS 1861-1865

*This list was extracted and alphabetized from the Report of the Adjutant General of the State of Kansas, Vol. 1, 1861-1865, and another volume for the year 1864, which can be found in the Lawrence Public Library Kansas Collection, as well as the Kansas State Historical Society Library in Topeka. The first volume (1865) contains only the 1st through 11th Regiments. In the 1865 report, the Adjutant General notes that his office does not have complete records for all soldiers, and other records are incomplete. Other records conflict so that "a discriminating judgement often has to be exercised." Many cases involve men captured or wounded or who voluntarily returned from desertion where the records did not report this. Likewise, when a whole regiment was mustered out, all its members were usually recorded as being mustered out on that date, regardless of whether they were actually present, out on detached duty or in the hospital. In this extraction, only those who list Douglas County residences are recorded here, and in many cases the original records did not record the residence. It will also be noted that where the name of a location in Douglas County is the same as the location name in another county, all those whose residences could have been in Douglas County were extracted. Also, where discrepancies exist between the two volumes, the 1865 volume information is used if possible, since it was published later and contains many corrections. Some notes indicate which volume was used (1865 is used as the date of the 1861-1865 volume). The 1864 volume lists some birthdates and places where the later volume does not, and these are noted.*

*To assist in identifying mustering in and out dates and places and how they may apply to the individual soldier, we have also extracted a regimental "history."*

**CIVIL WAR DIRECTORY TO BE OFFERED ON COMPUTER**

Once of our members spotted an article in the *Cappers*, Vol. 113, No. 18, 27 Aug 1991, which stated the following: "A computerized directory of Civil War troops will be available to visitors at 28 national battlefields within a few years. The directory will contain about 3 1/2 million names.

"The National Park Service will offer prototypes at Shiloh and Antietam in 1992. Visitors who enter the name and state of a veteran will gain on-screen access to his military records."

**ANNA SMITH IRVIN CORRECTION AND OTHER INTERESTING NOTES**

We gratefully received this letter from Mrs. Virginia V. (John M.) Irvin of Monroe, Wisconsin. "... the Summer 1991, Vol. XIV, No. 4 issue (of *The Pioneer*) and noticed on page 181 at the bottom an extract from the paper written by Anna Smith IRVIN (not IRWIN). She was my husband's grandmother and wrote that paper when visiting her son Elmer IRVIN in western Kansas. Anna IRVIN was the daughter of Thomas Burr SMITH who came to Douglas County in the 1850s from Connecticut and his wife Sarah Ann GREENWOOD who came to Kansas with her mother, stepfather, and half siblings. Also a sister who is buried in that cemetery on Blue Mound. The Aunt Emma KILWORTH the teacher at the Blue Mound Colored School was Sarah Ann GREENWOOD's younger half sister Emma WHALEY born 1848/9 in either England or New York. She became Mrs. Jacob KILWORTH (not Mrs. JACOBS) and died in 1900. Jacob did not die until 1923. They lived in a very large house in Lawrence...

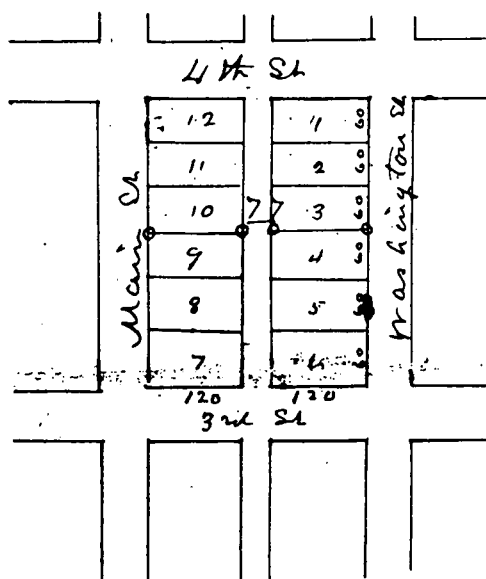

"On page 180 where you listed Blue Mound School students, Rena KNIGHTEN is listed in both years. She later worked as a hired girl for great grandmother Jane MOORE IRVIN and subsequently married the youngest son Edmund R. IRVIN. They farmed in Cloud County, Alabama, then moved to Perkins, Oklahoma, and Ed died in 1928 in Casa Grande, Arizona. They had one son Maurice IRVIN, born Steele's Depot, Alabama, who died in Perkins, Oklahoma... Ed is buried there and is Rena."

Instead, we will publish references, where shown, so that anyone interested can go to the original records for further information. All references are to Douglas Co., KS deeds unless otherwise noted.
