Mr. J. R. Briggs
Lawrence

Dear friend. 125.

I wrote to Mr Hall some time ago in regard to having the board make us a statement in regard to the completion and acceptance of the library. After some delay Mr. Hall replied the board did not want to release the bond. After waiting some time I thought I had better take the matter up with you as you would probably understand the situation in which we are placed and attend to it promptly. We are figuring on more work now being about done with our York St job. It is absolutely necessary that we have some kind of an official statement

Signed by the president and Secretary of the board in order to show the conditions our work is in before we can secure more bond. If nothing more can be given a letter something like you gave us the day of settlement with an additional statement of what was done signed by president and Secy. so it will be considered authoritative by the company will be a great help to us. As if we should get a statement made by the Architect would the board sign such a one. I think you can readily understand the situation Mr. Briggs without further explanation. We will be very thankful to you if you can do us this favor.

Yours truly Shaul & A. By G. A. Shaul
